To : Susan M. White
Mine Program Coordinator
DOGM

From: Kim E. Wilson
President
Martinique Mining Corp.

Ms. White,

I have included all annual reports for our permit holdings concerning our Utah holdings. I have a question concerning the S170045 permit on Bartons, Peak. This permit was not active for over 3 years and was inspected by Tom Munson last year and told to us it was released. I was not billed for the permit last year and consider the site released.

I understand we have a new reclamations person handling our area and he may be unfamiliar with the status of the area. I am sure you can contact Tom and complete the paperwork on your end.

Thank you.

Kim E. Wilson
